Support to strengthen and empower yourself

During a difficult time in my life, I felt lost and realised I needed help to move forward, find my confidence and be me again. As a nurse I considered many ways to get support, but decided to try hypnotherapy. It was life changing for me. I found I soon felt stronger and able to make decisions to move forward in my life.

As it helped me so much, I retrained as a hypnotherapist. It is a privilege to be trusted by clients to be part of their empowering journey of change. I am a certified and registered clinical hypnotherapist and mindfulness instructor.

About

Time to reset and reconnect with the real you

Life...it's unknown, unpredictable and this can affect how you feel and behave in your daily life at work, at home and in any situation. Maybe it feels like your confidence, energy, or enthusiasm has taken a hit lately.

Maybe you just don't feel like you, feel overwhelmed, a bit low, lost your direction or mojo, or just can't seem to overcome a challenge or difficult event in life. Feeling as if you just need a boost, or to reset to help you get going again?

Hypnotherapy and mindfulness can empower you to find your balance, your motivation, even help you to find you again to move forward to live life as the best version of the you that you want to be.
